

In this activity, we will be rounding numbers to the nearest ten.

Remember: If the number in the ones place is 1, 2, 3 or 4, **round down** to the nearest ten!

If the number in the ones place is 5, 6, 7, 8 or 9, **round up** to the nearest ten!

**Example 1**

Round 76 to the nearest ten.

76 is between 70 and 80.

The answer is **80** because in 76, the 6 in the ones place is more than 5, so round **up** to 80.

**Example 2**

Round 34 to the nearest ten.

34 is between 30 and 40.

There is a 4 in the ones place, so it rounds **down** to **30**.
